

WEALTHY MERCHANT BRUTALLY MURDERED; AUGUR WAS WEAPON.

Frank Wingard Was Found Dead in Bed at Stoyestown Home and Bloody Weapon Is Only Clue.

AUTHORITIES ARE ALL AT SEA

Victim Apparently Had No Enemies and Robbery Was Evidently the Motive for the Crime Although Nothing Was Found Missing.

Special to The Courier.

SOMERSET, April 8.—A foul murder, one of the most brutal in the annals of crime in Western Pennsylvania, was committed at Stoyestown during the night when unknown fiends attacked aged Frank Wingard, a prominent merchant of Stoyestown, and killed him while asleep.

The crime was a most repulsive one but the only clue left by the murderers was a blood stained augur, which had been bored through the brain of the unfortunate victim. Mr. Wingard was found in his bed, a pool of blood on the pillow. There was no evidence of a struggle and death evidently came while the victim of the murder was asleep.

Robbery was the apparent motive for the crime for the house and store adjoining were ransacked. Mrs. Wingard, who was not at home last night, assisted the investigators in making their search of the premises and nothing of value was missing. The entire house was upset and things thrown around in such shape that the fiends evidently did their work in haste.

Mr. Wingard was a prominent merchant of Stoyestown and was considered wealthy. He was 59 years old and married, and was widely known throughout the county. As far as is known he had no enemies.

Sheriff C. H. Weimer immediately left Somerset for Stoyestown, 10 miles away, and is personally conducting the investigation into which promises to be one of the most mysterious murders have ever encountered. The only evidence was the blood stained augur, which was found beside the dead man's bed.

It was impossible to determine just how entrance was gained to the house. The house adjoins the mercantile establishment Mr. Wingard conducted for a number of years. His business was a prosperous one.

Stoyestown is in the heart of the coal region and is infested with rough characters. There is also a large foreign population in the neighborhood.

Details of the affair are lacking and it may be several days before definite information concerning the affair can be learned. The officials are secretive but frankly admit they are puzzled by the case.

NEGRO REFUSES TO RETURN.

After Expressing Willingness to Go to Ohio He Refuses.

UNIONTOWN, April 8.—Apparently willing on Tuesday evening to accompany Deputy Sheriff McIntire to Stouffville, where he was wanted on several charges, Alf Jefferson changed his mind yesterday morning and refused to leave Pennsylvania without requisition papers. As soon as the officer made his first appearance Tuesday, Jefferson denied he was the man wanted in Ohio and signified his willingness to accompany the officer. McIntire spent the night in Uniontown and visited the jail early yesterday morning to secure his prisoner for the journey. He wouldn't go without papers.

PARIS, April 8.—(Special).—Christiano Castro, former President of Venezuela who is now journeying on the island of Martinique, will today receive official notice to leave at once and not land again on French territory.

Today the official report he is staying there was denied. The Foreign office prepared the decree of expulsion and it has been cabled to Martinique. There is much speculation where Castro will now take refuge.

STANDARD OIL LAWYERS SCORE IDA M. TARBELL

Say Magazine Writer is Responsible For the "Unjust and Unfair" Criticism Hurling at Trust.

United Press Telegram.

Milburn directed his denunciation, is expected to come in for a further verbal denunciation today when the Standard's lawyer resumes his argument for the defense in the Government's suit to dissolve the concern.

Miss Tarbell, in the opinion of the company's counsel, is responsible for much of the "unjust, unfair and destructive criticisms that have been aimed at the country's greatest industry."

FATE OF SCHOOL CODE UP TO LEADERS NOW

But Filibusters Have It At Their Mercy and Can Block Passage If Necessary.

United Press Telegram.

HARRISBURG, Pa., April 8.—When the members gathered in the House this morning the word was passed around that consideration of the school code bill will be resumed tonight by the committee of the whole. The bill will then be resumed unless it is decided to abandon it. Consideration of the future course in regard to it will be taken up after the adjournment of the morning session. Today will be devoted to appropriation bills.

Just what to do with the code depends up word which comes from the leaders. It is apparent the filibusters have the bill at their mercy and can force an indefinite postponement. The House is only in the committee of the whole on the bill and they can force the reading every of every section of the amendments and even demand roll calls on the second reading.

Under the rules of the House all bills will have been abandoned Saturday night. Session extension is impossible.

MRS. SAMPSON LIKELY TO BE FREED TODAY

Bellevue Judge Will Grant Petition of Defense When State Rests Its Case.

LYONS, N. Y., April 8.—With Carl Allen, a brother of the accused, the stand, the trial of Mrs. George Sampson for the murder of Harry Sampson was resumed today with the impression general everywhere that when the State rests its case, a motion for a dismissal of the indictment will be granted by Justice Rich, who is presiding.

The State still has a gun-shot expert, Dr. Hamilton of Auburn, to call, but inasmuch as it has developed that the shirt which the State has presented as one worn by the dead man when he was killed was not the one worn that morning, this is considered likely his testimony will be of much material benefit to the prosecution.

ONLY TWO PICKS.

Tuesday night burglars broke into the store of the Dunlap Supply Company store at Simpson station but the best they could get was two picks. They attempted to break open the cash drawer and extract the \$50 or \$70 it contained, but this effort was a failure.

FAIL TO ENTHUSE OVER PENN. AVE.

Anvil Chorus Has Been Knocking New Name for Main Street Hard.

MAJORITY OPPOSES CHANGE

Of the Many Citizens Seen This Morning Most of Them Believe Confusion Will Be Caused Needlessly—Advocates of Other Names Still Hope.

Where is the majority of citizens which this Penn Avenue satisfactory? This Penn Avenue a careful search over town this morning and outside of a few Councilmen there was not a single citizen who uttered over the new name. The majority of those who were interviewed seemed to think Main street good enough name for the thoroughfare and were opposed to changing from this name. Others thought there were better names by far than Penn Avenue.

One man says there is no system about naming the streets. One will be called a street and another an avenue with no attempt at regularity or observing any set rule. This man favors the appointment of a commission to take in hand the re-naming of all the streets of the greater city. He did not suggest that the Street Committee be assigned this task.

Not one man who was seen this morning, and quite a few of them expressed their views on the matter, went into spasms of joy over the new name. Quite a few uttered strenuous objections. One man said it would be a good advertisement for the street car company as those on the other side of the river will have to call it West Penn Avenue. Those on the Connellville side will have to call it East Penn Avenue. The east and west prefix did not come in for consideration until after Council had adopted the name.

Some people think that Penn Avenue is used as an abbreviation for Pennsylvania Avenue. As a matter of fact Pittsburgh's Penn Avenue is an abbreviation, but is named after William Penn, the founder of the State, some of the Councilmen never heard of William, it is said.

The friends of other names, such as Crawford Avenue, Dougherty Avenue, State street and a score or more of others, are still clinging to the fragile hope that Burgess Evans will veto the ordinance and Council will take another tack.

Burgess Evans now has the ordinance in his possession but would give no inkling as to his probable course in the matter. He says he is thinking it over.

CIRCUS GROUND IS TO BE STARTED HERE

New Grounds Will Be Near Ball Park But Will Not Interfere With Games in Future.

Rockwell Marietta and Clair Stillwagon will start work in a day or so on the new circus grounds, they expect to lay out in the Second Ward just north of Marietta-Stillwagon park. At present the ground south of the park, which fell in some weeks ago, is being levelled off, and when this work is completed, the circus field will be put in shape. This is large enough to accommodate any show that will ever visit Connellville.

Cole Brothers, who bring their show here on April 25, have decided to show on the West Side. Councilman John Duggan is said to have been the prime mover in this. There is a chance that the site may be changed as it is said the lots in the Greenwood addition are not large enough. A number of people objected to using their lots for the circus and the space available is limited.

Altman and Health Officers Clark Foster and Grant Raymond and pronounced in good condition, Nell is of a different opinion.

OLD SCALE IN FULL FORCE

Decision To Make No Change At This Time Will Probably Control Course of a Majority of Independents—Republican and Keystone Reduce.

From The Weekly Courier.

Good news is contained for the entire Connellville coke region in an announcement made yesterday at the general offices of the H. C. Frick Coke Company by The Weekly Courier.

The H. C. Frick Coke Company has made no change in the scale of wages being paid all its classes of labor, and is paying the same scale which was in effect all of 1908. Furthermore, as far as this office knows, there is no prospect, or any intention on the part of the company of making any change in the scale of wages either at present or in the immediate future.

The above statement was made to The Weekly Courier officially and authoritatively and should completely set at rest the many stories which have been afloat throughout the region in which it was reported that the Frick company had in contemplation a reduction of wages in the near future.

It may further be stated that while for many months the company has been running at practically only about one-half of its entire productive capacity in the Connellville region, with the exception of occasional spurts when the weekly runs averaged a few points higher, the company has so distributed the work at its plants as to give every one of its employees a chance. At some plants the work has been given out on the basis of 80 many days per month for each man, with a preferential difference in favor of the married men, with families. Other plants have been operated part of the time and shut down in order to furnish work elsewhere and to the labor forces have been rotated to enable the largest possible number of men to pull through the winter.

The statement of the Frick company is the most authentic information obtainable as to the probable course of labor conditions in the region. What the directing heads of the United States Steel Corporation may have in mind is, of course, not known to anyone outside of them. But it is a reasonable assumption that the chief officers of the H. C. Frick Coke Company in the region would not make this statement, without some knowledge of the general controlling conditions.

It is probable that the action of this company will govern the majority of the independent operators in the region outside of a few who have already made slight wage reductions. One or two concerns in the lower region are said to be paying 20 per cent. less than the Frick scale.

During the past 60 days some of the smaller concerns in various parts of the Lower region have made cuts when they were offered assistance which they could not take unless their men agreed to a lower wage rate. Owing to the scarcity of work this alternative was in several cases accepted by the men.

The principal reduction in wages that has thus far taken place has been at the Republic works of the Republic Iron & Steel Company where upwards of 600 men have been affected by a reduction of 10 per cent. which became effective April 1. This is a part of the general cut made by the same company at all its establishments, outside of the coke region. The other two plants of this company in the Connellville region, Martin and Atchison, are shut down but it is understood that when they resume the reduced scale of wages will go into effect at them also. The reduction leaves the wages paid at the point they reached in 1905.

The Keystone Coal & Coke Company has made a reduction in the wages of its mine employees which went into effect April 1. The amount of this cut is stated to be seven and one-half cents under the scale previously paid for mining, and similar reductions on other classes of labor.

Outside of these two reductions, the independent operators have thus far made no changes in their wage rates, although several have considered the question. The announcement by the H. C. Frick Coke Company that it has not reduced wages and does not expect to do so for the present will serve to prevent reductions at other plants where such cuts might have occurred. Prospective lowering of the tariff duties on all forms of raw and finished iron and steel products, together with the present extremely poor business conditions have taken place throughout the Connellville region and the country generally.

ONE PRICE TO ALL

The BAZAAR

Will Open Its Doors to the Connellsville Public

FRIDAY, APRIL 9.

This being a new establishment, we deem it necessary to state to the buying public the methods on which we intend to build our success. It will be our aim to say as little as possible in praise of our store. But this little will be the TRUTH; for we know that one grain of truth weighs more than a hundred bushels of falsehood; and we know, too, that the best advertisers are the public. We want you and everybody else to be our advertisers. Tell the truth about us.

One Price to All Will Be the Inflexible Iron Rule in Each of the Bazaar's Departments.

High profits cannot and will not be considered legitimate at The Bazaar. One price to all means low prices to all, and these low prices will be marked in plain figures on each and every article. Truth and honesty being the foundation stones of our business, we are sure of a great success. In fact, it was on the strength of the appreciation which such business policies are bound to find, that we have bought a stock of ladies' wearables large enough to supply thousands of women.

Our manager has spent two weeks in the East making his purchases for the opening of The Bazaar, and you are cordially invited to visit our establishment and look at, inspect and examine the newest creations of

Ladies' Suitings, Skirts, Waists, Millinery, Etc.

LADIES' SUITINGS.	LADIES' CLOAKS.	MILLINERY.	LADIES' WAISTS.
We know our assortment of Ladies' Suits to be superior to anybody's. We would like you to know it, too. A comparison will accomplish it, when comparing quality, make, finish, etc. Don't fail to compare prices. Ladies' Suits in blue \$9.90. Ladies' Suits in all Black at \$12.50. Misses' Suits at \$8.90.	When intending to buy a coat go to others first and then come to us; or else come to us first and then go to others. Either way will prove profitable both to you and to us. Ladies' long Silk Rain Coats at \$5.95 and \$9.50. Ladies' Jackets at \$4.90 and \$5.75.	In this department the ladies' infinite variety of taste is met with an almost infinite variety of the newest and latest creations. And the prices are such as to enable every woman to obtain for a little sum the most stylish and up-to-the-minute hat. Ladies' hats at \$1.98, \$2.75 and \$4.95.	We have all kinds. In fact our assortment of Waists is so immense that it will be an impossibility for you not to find just the thing you want, and when you find it you'll be surprised at the low price on it. Ladies' Waists at 48c, 98c and \$1.95.

IT'S THE LITTLE THINGS THAT COUNT.

It's the little things that count. We will save you money on all your purchases in Underwear, Corsets, Corset Covers, Ladies' Furnishings, Etc. Be sure to be at our opening on Friday, April 9th. You will not get any souvenirs. We cannot afford to give you something for nothing, but you will get a good deal for something. And remember, you will not pay us any more than your neighbor for what you purchase, for the Bazaar is a One-Price Store.

THURSDAY EVE., APRIL 8, 1909.

NOT SATISFACTORY TO A MAJORITY OF THE PEOPLE.

The municipal statement evidently have queer notions about it.

They have insisted upon changing the name of Main street to "Penn Avenue." The name is no improvement to speak of on "Fifth Avenue."

It would have been better to have permitted the name of Main street to stand, since it expresses better than any other name the fact that this particular street is the principal thoroughfare of the town.

We read in the Official Organ that the name of Penn avenue was "satisfactory to a majority," but this must mean a majority of the Town Council and not of the people, certainly not of the people residing on the street itself, whose wishes should have governed in the matter. A petition is on file signed by practically every resident of the street on the West Side asking that the name of Main street, by which the street even in that section has been popularly known for years past, be retained and officially confirmed. Evidently the new name of Main street is not satisfactory to the people of Connelleville and the name should not have been changed.

But if there is any good reason for changing the name of this street it should take the name of somebody prominently identified with the rise and progress of the community, and not a name common to many communities. The Town Council should have shown more originality, not to mention greater respect to the town's founders and former citizens whose names are recorded in the pages of history.

The memories of the latter, however, will live when those who have refused them, honor will be forgotten. There is to be in some names which may not be eliminated even by Town Councils.

Burgess Evans still has something to say.

AFTER-DISCOVERED INDUBITABLE EVIDENCE.

In the Fayette county jail investigation great stress was laid on the fact that the inmates of the jail were no reputable witnesses, and that on this account their statements should be discredited.

The numerous paternity charges preferred by the female inmates of the jail since the hearing of the charges by the court is convincing corroborative evidence that the witnesses spoke the truth concerning the immoral practices alleged.

The flight of the chief jailer is a virtual confession of his guilt.

The findings of the court's investigation were evidently just, but it is a matter of some doubt in the light of subsequent developments whether the verdict of some of the jurors who tried the offenders individually were as just as they might have been.

However, there is consolation in the thought that the jail has had a thorough moral renovation.

COURTS MORE PARTICULAR ABOUT MAKING CITIZENS.

The courts are more particular about making citizens than they were formerly, and in the fact there is much cause for congratulation.

There is no desire to bar out foreign residents seeking to become naturalized citizens. The policy of our government is to encourage citizenship. But in times past little if any attention has been paid to the qualifications of the applicants with the result that we have harvested from the large and growing foreign residential population a crop of Un-American Citizens.

Under the new rules measures have been taken to weed out the ignorant and to make citizens of the intelligent only. The one weak feature of our government today is the large percentage of voters who are wholly unfitted in mental capacity to participate in the supreme duty of making and unmaking our official governing bodies. Indeed, it frequently happens that deplorable ignorance sits in high places squandering the money of the people and insulting their intelligence.

The educational qualification imposed upon the foreign-born residents seeking citizenship should be extended to all those who now have it, to the desirable end that enlightenment shall dictate the choice of our rulers and that we shall consequently be ruled wisely.

And so, it's to be Penn avenue, Raw, Raw!

The coke trade situation is turning its face to the light of the furnace glow.

The Marathon habit has seized upon Connelleville.

The small mine examination class reflect the small employment of that class just now.

The compensation of Borough Auditors ought to be fixed by law and not by the whims of the executive, the auditors are required to pass upon.

The municipal tax salary board colluded with the law and collapsed.

Greenwood came in on the wings of the storm, but her entrance was unimpeded and consequently unostentatious.

The Refectory Courtesies.

The Washington Observer wants to know why Washington, Pa., cannot elect Town Councilmen at large as well as Beaver Falls.

The trouble is that Beaver Falls has elected its Town Councilmen illegally, and if it attempted to elect her Town Councilmen at large they would also be subject to ouster.

The Salisbury Star approves of the Fayette county plan which makes an annual inspection of the premises of hotels applying for licenses and informs us that "some of Somerset county's hotels are little more than saloons, and in some cases very rough ones at that."

The same condition obtained in Fayette county, until the judges assumed that under the law they had a right and it was their duty to pass upon the fitness of the hotel as well as the character of the landlord.

Where Crawford's Name is Honored.

Washington Observer.

Connelleville is hunting a new name for her Main street. Why not call it in honor of Colonel Crawford, the friend of Washington, who was burned at the stake near Sandusky? He was an original settler on what is now a part of the capital of the coke country.

Follow the Rising Sun of Prosperity.

Lathrop Bulletin.

It is quite evident that the foreigners are convinced of the early return of prosperity. The manner in which they are flocking to this country, after spending the past year in their own land goes to show their confidence in an ability to secure employment. Nearly every train from the East brings small crowds of foreigners to Lathrop, all of them looking for work. Nearly all of them are experienced hands about coal mines, having worked at mining prior to the slump, and now they're back, having spent a year in their native lands. They're after work and their return, following a year's absence, would seem to indicate their confidence in a return of prosperity.

ONE DAY'S DOINGS IN SCOTSDALE.

Miss Edna Alice Ryan, Former Nurse, Dies at East Scottdale.

THE FUNERAL IS TOMORROW

Yesterday's Wind Storm Was The Wildest in Scottdale in Many Months—Arthur Avenue Paving Being Pushed Along Rapidly.

SCOTSDALE, April 7.—Miss Edna Alice Ryan, daughter of Mr. and Mrs. J. W. Ryan, of East Scottdale, died after a brief illness yesterday in her 26th year. She was to have been married during the week of April 18. Miss Ryan was a nurse in training at the Westmoreland hospital at Greensburg until March 8, when she resigned and came home to make the preparations for her wedding. She became ill a few days ago. Surviving her are her parents, four brothers and one sister. The funeral services will be held in the Methodist Episcopal Church at East Scottdale on Friday morning, the funeral leaving Scottdale at 12:30, which will make the church services about 2:30, followed by burial in the Burr Cemetery.

Wind Blew Wildly.
Not in many months has there been such a wild wind as swept through the streets of Scottdale yesterday. Pedestrians had their eyes filled with flying dust and then thus blinded were buffeted about from side to side of the pavement, while it was dangerous to try to cross the street. Women were whirled about in a very rude way by the wind and had to struggle bravely to get along. Several windows were broken, and telephone poles on Pittsburgh street and Homestead avenue were blown down, something that has not happened in a long time. In the evening the weather became much cooler.

Arthur Avenue Work On.
The Homestead Construction Company is pushing the paving of Arthur Avenue, Scottdale, and will wind up their work of improving that street within a short time. The brick have been laid from Evergreen avenue to High street, with a curbing on Chestnut street that will prove somewhat discouraging to the motorists who have a mania for racing on Chestnut street. The people living along there will not care if the speeding is discouraged. The crossing was made necessary in order to care for the water that comes down from the hill and that would otherwise overflow on Chestnut street, which was originally paved so that it left water to flow to the south of Arthur avenue.

"Merely Mary Ann."
There are a lot of Scottdale people planning to attend the matinee and evening performance at the Solheim theatre of "Merely Mary Ann" tomorrow. The play is one of the highest class and a beautiful story perfectly told.

FOUND AT LAST AFTER TEN YEARS AND FIFTY TRIALS.

Cleveland, O., contains a man made happy after years of experiment and suffering. J. C. Budd, living at the Hollenden hotel, is the fortunate one, and relative to his tribulation says: "I have had the rheumatism off and on for ten years, have taken at least fifty different remedies, but I want to say Rheumalins is the best of them all. My advice to anyone who is afflicted with rheumatism, is to try Rheumalins and if you're not cured, blame me." Now take him up on this, Willie Mr. Budd yourself and see what his

large and the Parochial Schools of Scottdale. The banks will all be closed tomorrow, too.

Is Slightly Improved.
The many friends of J. P. Owens will be happy to learn that the report of his condition last night, were that the patient shows some signs of improvement. Mr. Owens has been critically ill with pneumonia for several days.

In Greensburg Today.
J. W. Bussett is visiting friends and transacting business in Greensburg today.

C. H. Ulery's Condition.
The condition of C. H. Ulery, who has been ill with pneumonia for several days was reported last night to be very critical. At the time of writing this no report from the physicians for the morning could be obtained.

He Has a Bad Wheel.
Chief Frank McGibbon is suffering from what is apparently an attack of rheumatism in his right knee, that makes him limp painfully. It would be a good time for any Marathon running prisoner to make an escape while the big Chief of Scottdale has the bum wheel.

OBJECT TO FEES.

Exceptions Filed to Account of Executors in Big Estate.

UNIONTOWN, April 8.—When the audit of accounts of various estates now in Orphans' court were taken up yesterday before Judge Work, several of the heirs of the late William H. Riffe, by Attorney D. M. Hertzog, filed exceptions to the executors' accounts. These exceptions apply to the fees which the executors, S. R. Riffe and P. P. Detwiler, believe they are entitled to under the law. The Riffe estate was estimated to be worth \$297,109.48, of which all his been distributed under the provisions of the will with the exception of \$47,227.50. The executors say they are entitled to a 5 per cent. commission. The court took the papers and will decide on this matter in the final order.

THE CONSTIPATION EVIL.

Is Responsible For Most Cases of Piles.

Constipation paralyzes the blood vessels of the lower bowel, and often causes piles. Women, and all other indoor workers, are the most frequent sufferers. But curing constipation alone won't cure piles. A special medicine is needed—internal treatment, to strengthen the flabby veins and start pure blood circulating. Dr. Leonhardt's Hem-Rid is the only internal pile cure. Sold under guarantee \$1 at A. A. Clark's, or Dr. Leonhardt Co. Station B, Buffalo, N. Y. Write for booklet.

MINERS WILL APPEAL TO TAFT.

**Anthracite Operators Re-
fused any Con-
cessions.**

FINAL CONFERENCE TODAY

At Which It Is Expected That Miners
Will Refuse Operators' Proposal to
Renew Strike Commission's Award
For Three Years More.

Philadelphia, April 8.—At the meet-
ing between coal operators and the offi-
cials of the United Mineworkers
operators again refused all demands
and submitted instead a proposition
to extend the wage agreement brought
about by the anthracite strike com-
mission.

GEORGE F. BAER.

mission for another term of three
years. In order that the proposition
be laid before the officials of the
mineworkers' organization of the three
anthracite districts, who are in the
city, the conference adjourned to
meet again this afternoon.

Besides George F. Baer of the Read-
ing company there were present for the
operators: J. L. Cline, independent
operator; Thomas Fowler, president
of the New York, Ontario and West-
ern; W. H. Truesdale, president of the
Lackawanna; R. D. Thomas, president
of the Delmar; C. C. Sims, second
vice president of the Delaware and
Hudson; Amelia Williams, president
of the Susquehanna Coal company, and
George E. Parker.

The miners were represented by
President Lewis John Fallin, N. J.
Ferry and Miles Dougherty of the
national board, John Waters, district
No. 1; John McElhinney, district No. 7,
and John Paby of district No. 8.

It is said that if the operators per-
sist in refusing to make any conces-
sions the miners will appeal to Presi-
dent Taft for the appointment of a
commission to investigate the condi-
tions controlling the mining and sell-
ing of hard coal. It is also said that
if the conference comes to an end
without an agreement being reached
the miners will not declare a strike,
but will leave it to the operators, if
they see fit to do so, to declare a
lockout.

SCHOOL CODE BLOCKED

Democratic Filibuster in House De-
lays Much Abused Measure.

Harrisburg, Pa., April 8.—By one of
the greatest filibusters undertaken in
the legislature in recent years the
Democratic minority forced the house
to proceed so slowly with considera-
tion of the big school code that its
passage within the next twenty-four
hours is improbable. This means that
the senate will not get the bill until
next week and will have but three
days to consider it. Another effect of
the protracted debate on the bill will
be to retard legislation on the house
calendar so that scores of measures
will not be reached.

The house bill providing for a state
road from Philadelphia to Pittsburgh
and the house bill known as the Jones
bill, amending the present road laws,
were sent back to committee after
they had passed second reading in the
senate. They will be materially
amended and reported out today.

The Jones bill for creation of a
state fair commission was passed by
185 to 2. So much confusion occurred
during the roll call of the roll on the
bill to reorganize the auditor general's
department that a verification of the
roll was demanded. It showed the bill
passed 120 to 27.

The house mining committee has
indefinitely postponed action on the
Pitchford bill, making a soft coal
mine code. This is the bill drawn by
the bituminous mine law commission
and the action of the committee kills
the bill.

New Bridge Connected Up.

New York, April 8.—A giant steel
girder swung into place over the mid-
dle of the East river marked the con-
nection of the great steel superstruc-
ture of the Manhattan bridge, the
fourth of the spans linking Manhat-
tan Island and Long Island.

Russian Foreign Minister Resigns.

London, April 8.—A dispatch to the
Daily Telegraph from St. Petersburg
says that M. Litvinov, the foreign
minister, has tendered his resignation.

WATCHING CASTRO.

Montana and North Carolina on the
Caribbean Job.

Port de France, Martinique, April
8.—Cipriano Castro, in a rage against
the British government and the state
department at Washington, left the
steamer Guadeloupe at this port and
has taken up quarters on shore. Find-
ing all ports in the West Indies ex-
cept Port de France barred against
him, the present course was the only
one left open to the former Vene-
zuelan dictator.

Senor Castro's wife will continue on
board the Guadeloupe to La Guayra.
The American cruiser North Caro-
lina has arrived here.

The steamer Guadeloupe left here at
noon for Port of Spain and Vene-
zuelan ports. She was followed out
of the harbor by the cruiser Montana.

Situation in Venezuela Critical.

Paris, April 8.—"The situation in
Venezuela is critical. Cipriano Castro
has many partisans in high places,
even among the men recently appoint-
ed to office, and all are secretly hos-
tile to the return of Caracas." Is the
opinion of the correspondent in Vene-
zuela of the St. Louis as set forth in a
dispatch from Caracas. "Public opin-
ion is hostile to Castro, but the Go-
mez government is the object of a bit-
ter campaign by the leaders of the
old parties suppressed by Castro ten
years ago."

The correspondent is of the opinion
that intervention by the United States
is the only solution of the difficulty.

France Consents to Castro's Arrest.

Caracas, April 8.—The Venezuelan
government has sounded France to
ascertain whether or not difficulties
would be encountered if Cipriano Cas-
tro were arrested on board the steamer
Guadeloupe at a Venezuelan port.
The reply of France indicated that she
would make no protest in such an
event.

Furthermore the French govern-
ment is considering the advisability
of expelling Castro from the island of
Martinique, where he now is.

RIVAL OF IDA TARBELL.

Declares Milburn in Defending Stand-
ard Oil in Court.

St. Louis, April 8.—"Miss Ida Tar-
bell is entitled to a patent on the al-
leged Standard Oil conspiracy of
1879," declared Lawyer John C. Mil-
burn, the Standard Oil company's chief
of counsel, during his argument be-
fore the four judges of the United
States circuit court, sitting in the
government's suit to dissolve the oil
corporation as a violator of the Shan-
non act. "And," he added, turning
toward Federal Attorney Kellogg, "the
government here is trying to deprive
her of it."

Instead of being a nuisance to the in-
dependent refiners, Mr. Milburn de-
clared the Standard Oil company had
always led the way and blazed the
trail in the oil world and that the in-
dependent had but to follow, as they
had always done.

Mr. Milburn told of the care with
which the firm of Rockefeller & Co.,
even in its earliest days, studied the
economies of the oil business, estab-
lishing warehouses and lightening fa-
cilities in New York that they might
be independent of local conditions.

"As early as 1865," said Mr. Mil-
burn, "the firm made its own barrels
at \$1.50 each instead of paying \$2.50
in the market. This care of detail
gave the bankers confidence in them
and enabled the young oil merchants
to borrow capital."

Telling them of the fight made
against Cleveland as a refining center
by the Pennsylvania railroad in an en-
deavor to dominate the oil world, Mr.
Milburn, pausing dramatically, with
uplifted hands, exclaimed:

"Instead of concealing the so-called
conspiracy about which we have
heard so much, Mr. Rockefeller and
his associates were at that very mo-
ment fighting for their own lives and
commercial existence."

FIND CORPSE IN CELLAR

Erie Woman Murdered and Assaulted
by Unknown Person.

Erie, Pa., April 8.—The mutilated
body of Mrs. Winnie M. Young was
discovered in the cellar of the resi-
dence of her son, Delmar Young, with
whom she made her home.

The victim had been murdered and
her body concealed under a pile of old
carpets. An assault had been com-
mitted.

Edward Zanger, who is said to have
been seen about the Young house, was
arrested on suspicion and was ques-
tioned closely by the police. Mrs.
Elizabeth Collins, who had been help-
ing Mrs. Young during the day, suva
man who is said to answer the de-
scription of Zanger entering the prem-
ises as she was leaving.

Turkish Editor Killed.

Constantinople, April 8.—Hassan
Rehmet Effendi, editor of the Liberal
newspaper Serbesti, was shot and
killed by an unknown man as he was
entering his office. A government offi-
cial accompanying the editor was
carrying on a campaign against the
committee of union and progress.

Rochester, N. Y., April 8.—John
Veith was killed during a 51-mile-an-
hour windstorm and a twelve-year-old
child sustained a fractured skull from a
wind-blown chimney.

weighing almost 100 pounds was

dianapolis.

OWES HER LIFE TO

**Lydia E. Pinkham's
Vegetable Compound**

Vienna, W. Va.—"I feel that I owe
the last ten years of my life to Lydia
E. Pinkham's Vegetable Compound.
Eleven years ago I was a walking
shadow. I had been under the doctor's
merciless treatment. My husband per-
suaded me to try Lydia E. Pinkham's
Vegetable Compound and it worked
like a charm. It re-
lieved all my pains
and misery. I advise all suffering
women to take Lydia E. Pinkham's
Vegetable Compound."—Mrs. ESTER
WILKINSON, Vienna, W. Va.
Lydia E. Pinkham's Vegetable Com-
pound, made from natural roots and
herbs, contains no narcotics or harm-
ful drugs, and to-day holds the record
for the largest number of actual cures
of female diseases of any similar medi-
cine in the country, and thousands of
voluntary testimonials are on file in
the Pinkham Laboratory at Lynn,
Mass., from women who have been
cured from almost every form of
female complaint, inflammation, ul-
ceration, displacements, fibroid tumors,
irregularities, periodic pains, backache,
headache and nervous prostration.
Every such suffering woman owes it to
herself to give Lydia E. Pinkham's
Vegetable Compound a trial.

about your case, write a confidential

FIRE DESTROYED SHIRT

That Might Have Cleared Mrs. Georgia
Sampson.

Lyons, N. Y., April 8.—The father
and mother and two brothers of Mrs.
Georgia Sampson, charged with the
killing of her husband, Harry Sam-
pson, were called to the witness stand
by District Attorney Gilbert to give
evidence on which the state is depend-
ing to convict Mrs. Georgia Sampson
of murder. A sad figure in the court-
room was the widowed mother of
Harry Sampson, Mrs. George Sam-
pson, who probably will be called as a
witness.

The defense secured several material
points through the testimony of the
members of the Allen family. It was
established that shortly before Harry
Sampson staggered into the Allen din-
ing room and fell dead Mrs. Sampson
was seen on the second floor of her
home.

Through Mrs. Allen the state at-
torneys brought out the fact that Robert
Manson of Niagara Falls had writ-
ten to Georgia inviting her and a
friend, Miss Mildred Carvoss, to spend
a few days in Niagara Falls. Harry
quarreled with his wife over the let-
ter. Mrs. Sampson's lawyers state
that Manson had written asking Mrs.
Sampson to act as a chaperone.

John Elbert, a neighbor, declared
that Harry Sampson had smokeless
powder cartridges in his possession on
the day of the shooting. The defense
contends that this explains why no
powder marks were visible on Sam-
pson's shirt.

Carl Allen, a brother of Georgia, tes-
tified that he had burned the outer
shirt that Harry had worn when he
was shot and that the black shirt in
the district attorney's possession was
probably another shirt of the dead
man.

LEARNED LESSONS WELL

Fugitive Chauffeur Traced by Means
of a Bitter Doux.

Port Arthur, Tex., April 8.—William
Darragh, wanted in New York city
charged with having run down and
killed Ingauged Trimble, the thirteen
year-old son of P. D. Trimble, a Ken-
ucky attorney, was arrested when he
arrived here after "tramping" from
New York.

Darragh admits that he was driving
the automobile which ran down Trim-
ble but declared that the accident was
unavoidable; that he struck the boy
while endeavoring to avoid running
down others.

He attributes his arrest to a letter
he wrote to a young woman in New
York when he left the city immedi-
ately after the accident informing her of
his destination.

Vindictive Southerner Rebuked.

Tallahassee, Fla., April 8.—When
Governor Gilchrist's message was de-
bated in the legislature Senator Board
moved to table that portion which re-
commended making the anniversary of
Lincoln's birthday a holiday. Senator
Broom, a Confederate veteran, led the
argument in favor of observing the
birthday. Board's motion was lost.

Dirigible Balloon Disabled.

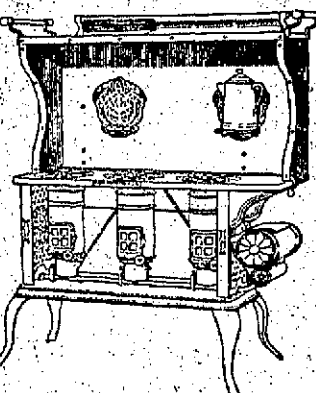

Schio, Italy, April 8.—The dirigible
balloon Italia's trials ended disastrously.
After maneuvering for some time
at a height of 1,200 feet the engine
broke down, and the balloon descend-
ed precipitately. It was badly dam-
aged, but the aeronauts were not hurt.

Governorship Offered Landis.

Washington, April 8.—President Taft
has offered to ex-representative C. B.
Landis the governorship of Porto
Rico. The position was tendered to ex-
Representative James Watson, who de-
clined it.

HEAVY DAMAGE BY WINDSTORM.

Many Lives Lost and Much
Property Was De-
stroyed.

VELOCITY RECORDS SMASHED

Cities and Towns Along the Great
Lakes Suffer Most—Telegraph and
Telephone Communication Impeded
or Interrupted.

Toledo, O., April 3.—Northwestern
Ohio experienced one of the most se-
vere windstorms in its history. Scores
of persons were injured, many of them
seriously, and the property damage is
large. In Toledo the loss is estimated
at \$25,000.

The wind attained a velocity of
seventy miles an hour. This is but
two miles less than the record.

A boy was blown out of a skiff into
the Maumee river and rescued with
difficulty. Another boy of six was
killed when he was rolled in
front of a speeding automobile. He
was fatally cut and bruised. Fif-
teen Toledoans were injured and two
of them, Miss Miriam Schroeder, twen-
ty, and James Gaudern, eight, are in a
serious condition. Miss Schroeder
was struck on the head by a plank
blown off a building and the Gaudern
boy was blown twenty yards along
the sidewalk and internally hurt.

The main building of the Toledo
Massillon Bridge company was par-
tially wrecked and 300 men are out
of work until repairs can be made.
The roof over the main building of
the plant, 103 by 400 feet, was torn
off and deposited in a field. Many
small towns near Toledo report much
damage and many minor accidents.

72 MILES AT BUFFALO

Lake Ice Field Forced Into Harbor,
Shipping Damaged.

Buffalo, N. Y., April 3.—The wind
tore through Buffalo at the rate of
seventy-two miles an hour. One man
was killed and many persons were in-
jured by parts of buildings detached
by the force of the wind and hurled
through the air.

Out in the lake the ice field was
broken up and forced into this harbor.
The big steel steamer J. J. Brown
and William H. Truesdale broke from
their moorings and were blown
around. A dredge got jammed in the
ice and sank. Telegraph and tele-
phone service in all directions is in-
terrupted. Communication with Cin-
cinnati was cut off.

The wind played such havoc in the
lumber yards at Tonawanda that work
was suspended. The steeple of the
First Methodist church fell on the
roof of the church and broke through,
causing \$5,000 damage. The roof and
walls of parts of the Niagara Cordage
company's factory and the island
box plant on Tonawanda island were
blown down.

At Niagara Falls a large section of
the roof of the Cataract House, one of
the oldest of the summer hotel-
ries, was split into Main street.

The damage at Lockport will amount
to several thousand dollars. The Lock-
port rubber works was badly dam-
aged.

LOSE BET AND LIVES

Three Foolhardy Men Drowned in De-
troit River.

Detroit, April 3.—Eight persons lost
their lives in the storm in Michigan.
Anthony Keup, a saloonkeeper; Joe
Kadich, a barber, and Adam Felin, all
of Wyandotte, attempted to cross the
Detroit river in a rowboat in a fifty-
mile gale to settle a wager and all
three were drowned when their boat
capsized. Kadich bet Keup \$5 that
he would not dare to cross in the
small boat and Felin was the stake-
holder.

At Jennings, in Missaukee county,
three young men named Bernard Car-
son, Charles Jackson and John Tor-
rey were killed by being caught un-
der a wall blown down by the wind.

Eight-year-old Benjamin Holtzner
was killed by lightning near Ionia, and
Ray Miller was killed at Brighton
when he was struck by a roof that
had been blown off by the wind.

The damage to roofs, chimneys,
plate glass, etc., will probably reach
\$50,000 in Detroit and Michigan. The
wind velocity reached seventy miles
an hour.

SIXTEEN MEN MISSING

Fishing Tug and Sand Sucker at
Mersey of the Gale.

Cleveland, April 3.—The fishing tug
George Floyd, with seven men aboard,
and the sand sucker Mary, with nine
men, are missing, and the barge Nor-
man Kelley, with a crew of four, was
rescued after a desperate fight as a
result of the storm on Lake Erie. The
wind blew a sixty-mile gale. Life sav-
ers have been unable to do effective
work.

The steel barge Kelley's crew, three
men and a woman, were picked up
after floating away from Kelley's Is-
land, where the tug broke away.
There was neither an engine nor an
oar on the barge, so the crew was at
the mercy of the waves.

maturing for the great exposition to
be held in Buenos Aires in 1910.

POLLY of the CIRCUS

By MARGARET MAYO

Copyright, 1935, by Dodd, Mead and
Company

"Without me you can't leave them," he
said. "For to return from following
after thee, for whether thou goest I will
go, and where thou lodgest I will lodge.
Thy people shall be my people and thy
God my God."

He stopped to ponder over the poetry
of the lines.

"I guess I'd like to hear you spiel,"
she said, looking at him with a con-
sidering and a little scornful.

"There are far more beautiful things
than that," Douglas assured her so-
lemnly, as the echo of many
such rang in his ears.

"There are?" And her eyes opened
wide with wonder.

"Yes, indeed," he replied, playing
more and more the star of the show
and longing to bring to it floods of
light and enlightenment.

"I guess I'd like to hear you spiel,"
she said, looking at him with a con-
sidering and a little scornful.

"You would?" he asked eagerly.

"Is there any more to that story?"
she asked, ignoring his question.

"Yes, indeed."

"Would you read me a little more?"
she was very humble now.

"Where thou diest will I die, and
there will I be buried. The Lord do so
to me, and more also, if aught but
death part me and thee."

Their eyes met. There was a long
pause. Suddenly the sharp, sweet
notes of the church bell brought John
Douglas to his feet with a start of
surprise.

"Have you got to go?" Polly asked
regretfully.

"Yes, I must, but I'll read the rest
from the church. Open the window,
Mandy!" And he passed out of the
door and quickly down the stairs.

CHAPTER VI.

WHEN John Douglas' uncle ob-
served to educate his nephew
for the ministry the boy was
less enthusiastic than his
mother. He did not remember, how-
ever, for it had been the custom of
generations for at least one son of each
Douglas family to preach the gospel
of Calvinism, and his father's career
as an architect and landscape gardener
had not left him much capital.

Douglas senior had been recognized
as an artist by the few who under-
stood his talent, but there was small
demand for the builder of picturesque
houses in the little business towns of
the middle west, and at last he passed
away, leaving his son only the burden
of his financial failure and an ardent
desire to succeed at the profession in
which his father had failed so badly.
The homeless, dejected look on the de-
jected man's face had always haunted
the boy, who was artist enough to feel
his father's genius intuitively and
human enough to resent the injustice
of his fate.

Douglas' mother had suffered so
much because of the financial failure of
her husband that she discour-
aged the early tendencies of the son
toward drawing and mathematics and
tried to direct his thoughts toward
creeds and Bible history. When he
went away for his collegiate course
she was less in touch with him and he
was able to steal time from his at-
tention to devote to his art. He spent
his vacations in a picturesque city be-
fore a drawing board in the office of a
distinguished architect, his father's
friend.

Douglas was not a brilliant divinity
student, and he was called at last
when he received his degree in theo-
logy and found himself appointed to a
small church in the middle west.

His step was very bright the morning
he first went up the path that led to
his new home. His artistic sense was
charmed by the picturesque approach
to the church and parsonage. The
view toward the tree covered slope
was unobstructed; for the church had
been built on the outskirts of the town
to allow for a growth that had not
materialized. He threw up his head
and gazed at the blue hills, with their
background of soft, slow melting
clouds. "It's sweet as the fresh earth,
the bursting of the buds, the forming
of new life, set him thrilling with a
joy that was very near to pain.

He stopped halfway up the path
and considered the advantages of a
new front to the narrow event cot-
tage, and when his foot touched the
first step of the vine covered porch he
was far more concerned about a new
porch than with any thought of his
first sermon.

His speculations were abruptly cut
short by Mandy, who bustled out of
the door with a wide smile of welcome
on her black face and an unmistakable
ambition to take him impudently un-
der her motherly wing. She was much
concerned because the church people
had not met the new pastor at the sta-
tion and brought him to the house.
Upon learning that Douglas had pur-
posely avoided their escort, preferring
to come to his new home the first time
alone, she made up her mind that she
was going to like him.

Mandy had long been a fixture in the
parsonage. She and her worse half,
Hasty Jones, had come to know and
discuss the weaknesses of the many
clergymen who had come and gone,
the deacons and the congregation, both
individually and collectively. She con-
fided to Hasty that she didn't "blame
the new parson for not wanting to mix
up with dat old crowd."

In the study that night, when she
and Hasty helped Douglas unpack

MRS. MATTHEW SCOTT, CANDIDATE
FOR PRESIDENCY OF D. A. R.

WASHINGTON, April 3.—Mrs. Matthew Scott, who will be the admin-
istration candidate for the presidency general of the Daughters of the Amer-
ican Revolution at the opening of the congress of that body here on April
15, is prominent in the social life of the capital. She is a resident of Bloom-
ington, Ill., the widow of a wealthy coal mine operator. Mrs. Brownwell,
wife of Captain Charles Brownwell, former mayor of Chicago, at the White
House, is her daughter. The most important measure to come before the
convention is the matter of the completion of the Continental Hall.

his many boxes of books, they were as
eager as children about the drawings
and pictures which he showed them.
His mind had gone beyond the parson-
age front now, and he described to
them the advantage of adding an ex-
tra ten feet to the church steeple.

Mandy felt herself almost an artist
when she and Hasty made the pastor
go to sleep, for she was still quivering
from the contagion of Douglas' enthu-
siasm. Here, at last, was a minister
who could do something besides find
fault with her.

"If I was to be on do ground" do
first time that Mandy Douglas and dat
ere Deacon Strong clinched," she said
to Hasty as they looked the doors and
turned out the hall light. "Did you
done see his jaw?" she whispered.

"He look laughin' enough now, but
jest you wait till he done set dat 'ere
jaw of his'n, and dat ain't nobody
what's goin' to unset it."

"Maybe dat ain't goin' to be on do
clinchin'," said Hasty, hoping for Man-
dy's assurance to the contrary.

"What?" shrieked Mandy. "Did dat
ere minister, Widow Willoughby al-
ready set dat deacon how far start
de parson agin' proper?"

"Now, why youse always a pickin'
on to dat 'ere widow?" asked Hasty,
already enjoying the explosion which he
knew his defense of the widow was
sure to excite.

"I don't like no woman what's allus
braggin' 'bout her clean house," an-
swered Mandy shortly. She turned
out the last light and lifted up ap-
pears, trying not to disturb the pastor.

John Douglas was busy already with
pencil and paper, making notes of the
plans for the church and parsonage,
which, he felt, do deacons how far start
de parson agin' proper?"

Alas, for Douglas' day dream! It was
not many weeks before he understood
with a heavy heart that the deacons
were far too dull and uninspired to
share his faith in beauty as an aid to
man's spiritual uplift.

"We think we're doin' pretty well by
this church," said Deacon Strong, who
was the business head, the political
boss and the moral mentor of the
small town's affairs. "Just you worry
along with the preachin', young man,
and we'll attend to the buyin' and
buildin' operations."

Douglas' mind was too active to con-
tent itself wholly with the writing of
sermons and the routine of formal pas-
toral calls. He was a keen humani-
tarian, so little by little he came to
be interested in the heart stories and
disappointments of many of the vil-
lages up around, some of whom were
outside his congregation. The mon-
otony sick, the despondent, who needed
words of hope and courage more than
dry talks on theology, found in him
an ever ready friend and adviser, and
these came to love and depend on
him, but he was never popular with
the creed bound element of the
church.

"It is astonishing," remarked a well-
known authority on Diseases of the
skin, "how such a large number of
people, especially ladies, are by ac-
tively written advertisements, in-
duced to purchase some one of the
many so called Beauty Creams now
on the market, not knowing, of
course, that they mostly contain oil
or greasy substances that clog the
pores of the skin and are, for that
reason, the very worst thing that they
could possibly use. My treatment of
Pimples, Blackheads, Itches and all
eruptions of the skin, are as follows:
and have invariably proved very suc-
cessful. Wash the face carefully
every night before retiring with warm
water and a little oat meal tied up in
a small cloth bag, then, after drying
well, use the following inexpensive
and perfectly harmless prescription,
which can be filled at any Drug Store.

Clearskin 1/2 oz., Ethel 1 oz., Alcohol
7 oz. Use this mixture on the face as
often as possible during the day, but
use it at night and morning any way,
allowing it to remain on the face at
least ten minutes, then the powdery
film may be wiped off. Do not wash
the face for some little time after
using. By following this simple
treatment, you will soon have a clear
and brilliant complexion.

CANNON LOSES

FIGHT IN HOUSE.

Speaker's Personal Appeal
for Oil Duty Un-
heeded.

OIL SCHEDULE IS AMENDED

After Chair's Ruling is Reversed By
Vote of the House—Nominal Duty
of 1 Per Cent Ad Valorem, Proposed
by Norris of Kansas.

Washington, April 8.—The Republican organization of the house had a bad day. By a coalition between some Republican "insurgents" and the Democrats the ways and means committee was bowled over and the advocates of free crude oil and its products won a signal victory when an amendment by Mr. Norris of Nebraska placing the insignificant duty of 1 per centum ad valorem on these articles was adopted by a substantial majority.

A decision of the chairman that amendments could not be offered to this oil schedule other than the one covered by the special rule of last Monday and which provided for the removal of the countervailing duty on crude petroleum and applying an ad valorem duty of 25 per cent, was overturned, and not even a fervid appeal by the speaker, in an endeavor to rally the Republican forces, was sufficient to stem the tide avowedly against the Standard Oil company. By a practically unanimous vote the countervailing duty went out, as the committee had recommended.

Tea and Coffee on Free List.
On all other propositions the committee was sustained. The tariff schedule ran the gamut without change. Tea and coffee were placed on the free list, and the duty on barytes increased from 75 cents a ton to \$1.50 a ton.

A colloquy at first humorous but later developing into personalities developed between Mr. Stanley, Kentucky, and Mr. Clark, Florida, and was terminated only upon an objection by Mr. Crumpacker, Indiana, that it was against the dignity of the house. The bill was laid aside and the house adjourned.

A vigorous appeal was made by Mr. Campbell, Kansas, for protection for the independent oil producers, who, he said, needed protection while the Standard Oil company did not.

A bitter attack against the Standard Oil company was made by Mr. Cooper, Wisconsin, in favor of the Norris amendment. Seeing the wave of sentiment in favor of the amendment, Speaker Cannon took the floor and warned the members of the dangers ahead. He made a plea for the American producer of oil. The amendment, he declared, was designed to punish the wicked Standard Oil.

Samson's Case Cited.
"Gentlemen," he said, "is it not well enough to see when you seek to punish somebody that you claim is bad that you do not, like Samson, pull down the pillars and have the temple fall upon you?" The adoption of the Norris amendment, he said, would let in practically free refined oil from Mexico, "and still the gentlemen from Wisconsin and others flap their wings and crow and exult and the people while they denounce in denouncing the wicked Standard Oil."

Mr. Fitzgerald, New York, denied that the Standard Oil company controlled his official actions, saying these were inspirations vision from through "dirty and discreditable plots."

EXONERATED BY JURY

Young Man Stabs Jealous Rival to
Death With Penknife.

Milford, Pa., April 8.—Chester Gray, age twenty, of Milton, who stabbed and killed Walter J. Gillespie, was exonerated by the coroner's jury, which held that Gillespie's death was accidental. Gray was discharged from custody.

The testimony showed that Gillespie had become jealous of the attentions paid by Gray to a school girl, in company with two friends he had gone to the girl's home and waited for Gray to come out. As the latter stepped out he pulled a small penknife from his pocket to cut the end from a cigar. As he did so he was not on the sidewalk by Gillespie and his two companions. It is alleged that Gillespie struck Gray. The latter threw up his head to ward off other blows and the knife struck Gillespie, penetrating his heart. Horrified at what he had done Gray ran to an alley and attempted to cut his own throat.

Boy Confesses Having Been Taught
Art of Stealing.

Washington, Pa., April 8.—"We are taught how to steal and then paid for our work," said Alvin Telford, age twelve, when arrested last night with Henry Corbin, age fifteen, on a charge of robbery. Three others said to belong to the school of thieves were arrested. All live in a house at Mendonville, near here, and are held to answer charges of larceny, robbery and holdups.

The boys told how they were trained to steal and to get away in case they were detected. It is said over \$1,000 worth of plunder was found at the house where the five lived. Other arrests are promised.

The Wright-Metzler Garment Business.

Six years ago when we first opened our establishment in Connellsville we were so bold as to announce a new era in Fayette county garment selling. The truth of that statement needs no comment today. The established position of the Wright-Metzler store, as the foremost retail garment store in this county is today unquestionable. The two fundamental ideas inaugurated by the W-M system were as follows:

1st. A fair fixed price on every garment. (Price haggling eliminated.)
2nd. Presenting at all times authentic styles, that represent the efforts of the best designers and tailors in the land.

This was the basic foundation of the entire structure. This has placed our garment stores in a most enviable position. A position that will be splendidly lived up to by the magnificent showing of today.

Your New Easter Suit is
Ready at Wright-Metzler's

A good many men are thinking seriously of their new Spring Suits today and we're going to help a good many of them to a most satisfactory solution of the question. In the first place, we're showing a collection of Men's Clothing here that cannot be equalled in a long journey around town. The fabrics selected are the smartest the mills have produced this season. The styles are the very best that have been brought out. The variety will satisfy the most particular men.

The manner in which our clothing is made will in particular appeal to the man who likes his clothing to look as well six months after he has bought it as it did when he first put it on. The details of construction in Wright-Metzler Clothing assure him of exactly this fact. We present models priced at from \$15.00 to \$30.00.

Easter Exhibit of Millinery.

The Spring exhibit of our Millinery has excited much admiration and comment and there's abundant reason for it. The shapes, trimmings and colorings all mirror the correct modes of the season. You've seen them; you know they're different. Well, it's just the difference between "Correct style" and "Hit or miss" kind of designing. If you spend your money you're entitled to the best that money will buy. You should get style—correct style—not just something that takes the form of a hat. Our public demands the best of style, and they get it. Millinery bought here is authentic and will endure throughout the season. You'll not be ashamed of it at the most stylish of summer resorts. Your hat will be admired because of its perfect conception of all that is fashionable. Ask the most stylish woman you know her opinion of our millinery organization. Her opinion should have weight with you. We'll rely on her answer—and candidly, your Easter hat should be bought here.

Style in
Boys' Clothes.

Most makers try to straddle the style question. They build the same suits for old men and young men, and boys. They try to strike an average. They do justice to none. Boys are not in the average but outside of it. Our clothes for boys are made by people that make boys' clothes and nothing else. Made with such grace, full lines that they tend both to improve a poor figure and set off a good one. The patterns are decided.

We present them in Russian and Sedor blouse suits between the ages of 2 1/2 and 8 years. And in double breasted models between the ages of 7 and 17 years, in blue serges, fancy worsteds and cashmeres. We desire to direct your attention to the novel lapel and cuff treatment in suits for the older boys. Every thread of these suits are wool. Their price is \$5.00.

Fitting of Shoes.

A shoe surely looks better when it properly fits the foot, but aside from its value to your appearance it wears a great deal longer. Things do not wrinkle and wear through. It preserves its shapeliness to the end and its easier to wear. Our broad stocks have within them your shoe and our salesmen are paid to know exactly which one you require. You could not do better than elect to buy your Easter footwear here. It is assuredly correct and there's immense variety to choose among, both in men's and women's shoes. Low cuts, of course, have the preference, but there's a goodly collection of snappy stylish, high cut boots in most approved styles. The range of prices will meet your demands.

New Four-in-Hands.
Have you seen the new do joinville, they're made from ribbon in distinctive weaves, and have the advantages of tying in a small knot in conformity to the needs of the new "planch collar" and they will not "pull" and wrinkle like most silk under the pressure. We show them in wide variety at \$1.50

Interwoven Half Hose
All the new shades and this season they've improved them, the tops are self gauge. You can see through them, then where the wear comes, they are doubly woven. You demand this gaugey, lowery when how-long time comes and here's what you want in any color, made to wear 25c

Gloves
More gloves are sold during the weeks preceding Easter than during the rest of the year combined. So stocks are better ready to meet your demands at these times of the year than any other.
Men's Gloves, \$1.00 to \$2.00
Women's Gloves \$1 to \$3.00

Easter a Few Hours Away.

It is impossible for us to augment by words the opinion held of our styles in the minds of women who know. We are proud today to invite you to view the largest and finest assemblage of fashionable models that we have ever brought together, and this is the culminating feature of our garment store for women. That you may choose from among a host of models—each one unique in its every line. It is a condition to be found only where such stocks as ours are provided. In no sense does any competitive establishment equal our showing in point of scope—that is, numbers, variety of styles, and range of prices. In most cases, too, we can fit you perfectly without alteration, but where changes are required, we do just as the tailor would—make the necessary alterations in a most artistic manner. Superb fabrics—beautiful styles and perfection of fit, guaranteed—alteration forces have been greatly increased and we can promise you prompt delivery. You'll have a perfect fitting, distinctive suit delivered to you before Easter. You'll appreciate that with so few hours for choosing. Our stocks reach their fullest variety just at this season. Our suit section is the busiest corner in all this town. It's the subtle influence of style, real style, that is attracting the better dressed classes to this store, and prices in most cases are lower than elsewhere. You can buy a distinctive suit for us—little as \$15.00, or you can purchase suits of finer texture and more complicated designing up to \$55.00.

Our Showing of New Waists.

Radically different than those of last season—sleeves are long and not and lace waists a very strong feature. Nearly one on the side of our big second floor is now given over to the waist section. We're confident that we show more distinctive styles here than all competitive establishments combined—and every style undoubtedly covered, full of individuality and distinction. It is surprising how much of that indefinable thing "style" can be had for a dollar; what loveliness comes at \$1.50 to \$3.50, and then the splendid creations of silk and net at from \$3.50 to \$15.00.

LINGERIE WAISTS.
Lace and embroidery trimmed and priced from \$1.00 to \$12.50.

TAILORED WAISTS.
Of linen, lawns, madras and linens and priced from \$1.00 to \$5.00.

NET WAISTS.
Plain, embroidered and appliqued nets, beautiful creations, at \$5.00 to \$15.00.

SILK WAISTS.
Messaline and tulle, silks, plain and richly trimmed models, \$3.50 to \$15.00.

MANUAL TRAINING MAY OUST MUSIC FROM PUBLIC SCHOOLS.

Radical Changes in Present System Can Be Looked for When Board Reorganizes on First Monday in June.

WEST SIDE MEMBERS ACTIVE

Still Smarting From the Manner in Which Their Councilmen Acted, They Propose to Have Something to Say About Running the Schools.

There is every probability that music may be ousted from the Greater Connellville Public schools to make room for a course in manual training. The manual training feature is almost sure to come and in the interests of economy the music lessons, which are purely optional with the School Board, will not be given.

That there will be some radical changes in the local schools seems almost positive for already there are shadows which forecast coming events. At a recent meeting of the School Board, Principal Deffenbaugh announced that he and Principal Masters of the High School were working on an improved curriculum for that branch and other changes may also result.

Director Charles H. Haisley of the West Side, is a strong advocate of manual training and can be expected to use considerable influence in this direction. The trend of educational times seems to be for manual training and a better practical education for the pupils. As the High School is to be modeled to meet the requirements of those who do not expect to go any higher, and this class is largely in the majority, so will a number of the directors argue for a similar policy in the higher grades, at least.

If manual training is taken up, it will probably be for the pupils of the High School, together with the High School classes.

"Manual training is all right," said a well-posted school man, "if it is conducted properly. If manual training is introduced in the schools here the Di-

rectors should be careful in their selection of the right teacher. A man who can instill ideas and ideals into his pupils is the man they want. A mere wood butcher who follows a policy of teaching manual labor instead of manual training would be worse than no one at all. And it is because of such teachers that manual training falls in its purpose many times."

It is said the West Side Directors are already planning to secure control of the School Board because they are disgusted with the action of their representatives in Town Council. It is not thought there will be any opposition to continuing Principal Deffenbaugh or Masters. The high standard of the local schools is appreciated on the West Side and the Directors recognize that Principal Deffenbaugh is the man who brought it about, aided by an unusually strong corps of teachers. When teachers are elected for the next term it must be remembered that the West Side have their friends to look out for. The election of the corps may prove exciting.

WHY A YALE BUTTON?

T. V. Merrett Suggests a Blue Waistcoat With Yellow Stripes.

T. V. Merrett of New York recently made the following statement on the proposition that Yale graduates should wear a Yale button:

"Why Yale buttons, may I ask? I once wore a button myself, and the only result was that all unattractive and unattractive strangers insisted on greeting me either as a Grand Army man or a member of the New York Athletic Club. My vote would be in favor not of buttons, but of waistcoats, blue waistcoats—no chance for error there—a blue waistcoat with gold stripes, say one stripe for each year the wearer had been out of college."

"I do not think any waistcoat would appear with many stripes."

BAN ON LIVE CHICKS

State S. P. C. A. Will Prosecute Cases of Cruelty to Unearthed.

The ban is placed on the donation of live chicks to children as Easter presents this year. The Pennsylvania Society for the Prevention of Cruelty to Animals, through its Secretary, W. B. Rathbun, has issued instructions to agents to watch carefully for cases of abuse and cruelty to newly hatched "peeps."

It is claimed by the Society that these young chickens are not properly nurtured and seldom live because of neglect. Then, too, the children frequently make such effective demonstrations that the chicken is overcome.

PHYSICIAN WROTE

10,000 SLIPS A YEAR

Prescription Called For Whiskey, Too, And in Water Wagon Morgantown.

MORGANTOWN, W. Va., April 8.—Prosecuting Attorney Boyd is investigating a case which, if true, will develop sensational and show some of the underworkings of a prohibition community.

The Prosecuting Attorney has been informed that a certain physician used 10,000 prescription blanks in one year. Most of these were on one particular drug store and prescribed whiskey.

Counting Sundays and week days, this would average over 27 prescriptions a day, and if there is that much business for one doctor in Morgantown, it must be a mecca for members of the medical profession.

If these prescriptions are legitimate, they should average the physician a dollar each, which would be a rather good income of \$10,000 a year.

BOOM FOR VANDERBILT LINE

It Would Be in Position to Compete Strongly With Other Roads For Pittsburgh Traffic if Fast Train Were Put On.

Talk of a new union passenger station is being revived but this time in a new form. It is said such a station will be erected on the West Side by the Pennsylvania and Pittsburgh & Lake Erie railroads. Negotiations are said to be pending, which, if successfully carried out, will give the Lake Erie passenger trains one of the Pennsylvania property at the West Side depot. It would only be necessary to lay a few additional tracks at this point to accommodate the Lake Erie trains.

If the deal goes through, and there is a possibility that something may be done in the near future, the Lake Erie trains could use the Pennsylvania depot without changing a single track. The Pennsylvania and Lake Erie tracks are connected by way of the Opossum Run branch of the former road and even now it is necessary for the Lake Erie passenger trains to use the Pennsylvania's tracks when shifting at the West Side depot.

There is every evidence that the Vanderbilt system is after a slice of the passenger business which goes out of Connellville. It is sure to get none if the new railroad is built to Cumberland, but that is for the future. Just now the line recently taken under the protecting wing of Mr. Harriman covets some of the western passenger traffic.

With a fast service into Pittsburgh the Lake Erie would be in a position to strongly compete with the Pennsylvania and the Baltimore & Ohio. Its service out of Pittsburgh to Cleveland, Buffalo, Boston and New England points is of the best.

There's always a "distinguished" air about the cut and the style of our Young Men's Garments.

Women of the Cabinet

Snapshots of the Charming Coterie That Will Assist Mrs. Taft in Presiding Over the World of Society at the National Capital.

By WALTON WILLIAMS.

THIS is a story about the cabinet and its wife. Rather, it is a story about the wife alone, for what is more man than that which should be the wife of a man, especially in the social game? It is probable that the bunch of lawyers Taft has gathered around him will find more or less with affairs and get their names in the papers, but we all know, or at least we all should know, that their wives will run the real world of the capital, which is the world of society. As a matter of fact also, women have a whole lot to say about the politics of this small earth, and this is entirely apart from the suffragette movement. Women, lovely women, have had their finger in the political pie in France and England for years, and any one who imagines that she has not had her say about Uncle Sam's game does not know Washington. For this reason and others women of the cabinet have become quite a factor in our national life. The fact that Mrs. Taft and Mrs. Sherman rode in the inaugural parade is a sign of the times. They belonged there.

More than one official in Washington was under the impression that Mrs. Taft was a woman of no account. Our mothers, wives and sisters do not know anything about the government of nations. Oh, no! But they do know all about the government of men, and in this way they rule the rulers, even in the government of nations. These pink toes are not merely ornamental. Washington dinners and receptions, dances and social chats have seen many little twists given to world policies. A quiet word from a woman's lips has plumed the bills in Congress. The influence that has won the army and navy, if reports are true, has not all been a male affair. Women are natural diplomats and managers of finance and intrigue. They may not vote, but they vote the voters. They may not be elected or appointed to hold office, but they reign by divine right.

Kitchcock a Bachelor.

Since the days of Washington till now the women of the cabinet have played their part in Washington life. The part grows with the years. In the beginning of the twentieth century it was bigger than it was in the nineteenth century. As for the present cabinet, it contains a disparity, for while there are also members, they have only seven wives. Wilson is a widower and Kitchcock a bachelor.

The daughter of the secretary of agriculture, Miss Flora Wilson, will probably make up the defect in his case, and, as for poor Kitchcock, if some designing-mamma does not remove him from the heaven of single blessedness before his term is over it will not be through lack of matrimony to that end. He may be able to manage politicians and delegations, but he never has had to deal with the feminine politician.

MRS. FLORA WILSON.

As for the wives of the other cabinet officers, they are generally well known in Washington, and all of them are acquainted with Mrs. Taft, with whom they will be thrown into such close contact during the coming administration. Mrs. Philander Chase Knox, wife of the secretary of state, is already an old comrade of Mrs. Taft, having served with her in the Roosevelt cabinet, and they are mutually fond of each other. Their houses in K street were but a short distance apart, and they frequently made the Tuesday morning journey from their homes to the White House together. The home of the secretary and Mrs. Knox is delightfully located in K street, just off Sixteenth street, at Executive Avenue, or the Avenue of Presidents, as it is generally dubbed from time to time, and is but a few blocks from the White House. It is just a bit of a walk, which Mrs. Knox

quite delights in. Having been on close terms with Mrs. Root, wife of the recent secretary of state, Mrs. Knox is already conversant with her duties, and, as for the cabinet entomologist, no one knows them better.

Capital Knows MacVeagh.

Mrs. Franklin MacVeagh, who will stand next to Mrs. Knox at the White House, is already acquainted with the smart set in Washington through her frequent visits to her brother-in-law, Wayne MacVeagh, and his family at their home in Massachusetts Avenue. Before marriage, Mrs. MacVeagh was Miss Emily James of New England, and James MacVeagh, the son of the house, bears the family name. Mrs. and Mrs. MacVeagh are familiar with the Washington summer residents in New England, as they own a delightful home, Knollwood, at Dublin, N. H., where many of them live. They have a large fortune and are expected to entertain lavishly.

Mrs. Dickinson, wife of Jacob M. Dickinson, chosen for secretary of war, is a southern woman of much grace and tact, and possesses to a marked degree the hospitality which makes the women of her section of country famous. While Judge Dickinson practiced law in Philadelphia, she was the partner of the former secretary of war who reigned as a social leader, and her departure from there was keenly regretted. She was a much traveled woman and has been over almost the entire world. She accompanied her husband to Pekin when he went there as a member of the commission to settle the Boxer troubles. She frequently visited at Washington the minister from Norway, Christian Haug, who died a few years ago, and his charming wife, Mme. Haug, whose relative she is.

A Washington Girl.

Going to Washington for Mrs. George W. Wickersham is almost like returning home, for it was there that she spent a considerable part of her happy girlhood. She has hosts of friends at the Capital City, who bespeak her constancy in that the friendships formed at her desk in school have held fast through all the more mature years of her life. Her father, Cornelius Wendell, went to Washington from Albany and lived in one of the spacious old fashioned residences in F street. An Mildred Wendell she attended Mrs. Burr's fashionable school with the girls of her set, many of whom are now interested in her return as an official hostess.

There is no particular charm about the office of the postmaster general under Mr. Taft's administration. It is filled by a bachelor, the first to enter the cabinet in a long time. Frank H. Hitchcock, not without hostess for his menage, but nevertheless he will annually, courtesy of the president, Mrs. Taft at dinner and otherwise display the hospitality required of him. He will be the most sought for dinner guest in Washington, and if he ever dines at home, except when he enters

the White House, it will not be the fault of his formidable matrons.

The Two Misses Meyer.

Mrs. George von Lengerke Meyer, wife of the retiring postmaster general, who has been selected to serve as secretary of the navy, is like Mrs. Knox, already an experienced cabinet hostess and a friend of Mrs. Taft. Besides this, Mrs. Meyer has been presented at foreign courts, has lived in Rome, where her husband was ambassador, and was transferred from there to St. Petersburg, where through the better of Russian troubles he acquired himself creditably. The two daughters of Mr. and Mrs. Meyer, Miss Julia Meyer and Miss Alice Meyer, are almost of a size, and though they do not look in the least alike, both have dark hair and eyes, and they are always dressed exactly alike. They have a pretty little electric runabout, in which they shop and make calls, and they are seldom separated.

Nor is Mrs. Richard A. Ballinger a stranger to Washington. Her husband,

Washington society, principally in the sense that through her husband, she is a graceful and gracious hostess and will be heartily welcomed to the cabinet circle.

Improved.

"How do you like your alarm clock?" asked the jeweler.

"First class."

"You didn't seem pleased with it at first."

"No, but it's broken now."—Tit-Bits.

SUNDAY VANDALISM ABOUT SCOTTTDALE.

Country People Would Like
Sunday Baseball in
the Town.

MIGHT GIVE THEM SOME PEACE

As it is They Complain Bitterly: That
The "Open Country" is All Opened
In The Country, And They Would
Be Pleased With a Change.

SCOTTTDALE, April 8.—The country dwellers surrounding town have about formed an organization to guard their property from the Sunday lawlessness of boys and men from town. The farmers say that these invasions have grown in size and vandalism during the last few years until they have become beyond human endurance. With the first warm days of spring there goes toward every section of the country boys, men, and dogs, and without regard to property rights, the country people claim, that their lands are overrun with fruit trees damaged, fences torn down, cattle molested, and various forms of destruction visited upon the fields, which are marked by paths that cause considerable loss of grain. If the invaders are remonstrated with, the country people say that they are greeted with curses and threats from the trespassers.

Many of the farmers have put up signs warning the public that their grounds are private property. On these convictions may be had for the simple trespass without any damage being done. Several country people in conversation expressed some strong views the other day, and one that it would be well if the people would take lead to "think it is an outrage upon our fellow citizens, the way the boys are allowed to carry on on Sundays," said one. "Their parents are careful to have them in Sunday School and church in the mornings, and then turn them loose on the community on Sunday afternoons. Talk about your 'Constitutional Sunday' and the danger of American institutions by following the Sunday observance of the older countries, where Sunday is looked upon as a day of pleasure. A better decision the people would make is to have a better if Sunday baseball would be suggested. They would think that fire and brimstone would likely come down from heaven and consume unrighteous Scottdale, and certainly take Breckon."

"Yes," said another, "that's all true, and the majority of the people look at it that way. But they turn around and allow their boys, and perhaps join themselves in excursions into the country, where they yell worse than they would at any ball game, and use profanity and indecency in a way that would not do at any ball game. Sunday baseball, or a Sunday nickelodeon, or a Sunday concert in the park, would be highly wrong, but the country people seem to think it is right for Sunday sport. Quiver thing isn't it? And it is not altogether the sporting element of town that does this either, or the foreign population."

"Well," interposed another, "if the town people expect us farmers to take care of their children and furnish them with Sunday afternoon amusement, they ought to be willing to pay for it. The only way to see that our children would be through a Justice of the Peace. Four parents ought not to object to this, if the care of the boy is taken off them in the long afternoon."

"I know how tempting and delightful the country is in spring and summer," remarked another, "I wouldn't like to labor anyone from such a pleasure, but the people that come out in the great majority of cases seem to simply come to do what harm they may to the peace and property of the country people. When the visitors bring the matter, as they have often done in the past, to that stage when one cannot enjoy Sunday in his home for the yelling, and profanity to be heard, or cannot walk out on his own property in any peace, some severe means are necessary to stem the current of Sunday lawlessness. So it doesn't look a bit good for the Sunday excursions as this summer in the form that they have taken in the last few summers."

USE THE ROLLER FITZIMMONS IDEA

Councilman From Scottdale's Third
Ward Thinks It Ought to Be
Used in Earth Street Work.

SCOTTTDALE, April 8.—Councilman J. W. Fitzimmons, of the Third ward, is a believer in the good roads principle, and has advanced the idea that the steam roller should be used in road building by the municipality in street paving as practised now, but also in making what is commonly known as the "mud streets." In this he has the backing of the best highway experts in the United States, although the idea has not permeated the country districts to any extent, and the most of them are content with digging along the roads and streets.

To do away with a continuous sink hole on the Pittsburgh street, extending

the Street Commissioner recently filled that portion of the street extending from the end of the paving to the Anderson Run hollow, with stone broken up. This raised the road bed and gave an opportunity for the water to flow away, but it made a thoroughfare that is exceedingly rocky and rough. The continued driving of buggies and wagons soon wore two deep cuts through it, and the stone became pushed out of the shape that they were built into, so that there is loud complaint from those that have to drive over it. The prospect is that if now measures are not taken soon the long line of stone work will be soon a waste of time and money. Mr. Fitzimmons desires that the road be raked into a crown shape, tolled with the steam roller used by the Homestead Construction Company on Archer avenue, covered with ashes, and then rolled to a good grade, leaving a smooth and passable street. He has advanced this idea and it finds favor with the public and most of the members of Council, so that likely before the construction company leaves they will put the roller on the street.

THE READING TRADE IS GROWING BETTER

T. H. Rutherford of Scottdale Notes
Improvement in Book and Paper
Trade in Last Few Weeks.

SCOTTTDALE, April 8.—Thomas H. Rutherford, the Pittsburgh street newsdealer and stationer, who is agent for The Courier, says that there has been a noticeable improvement in business within the last week or so, and that the prospects seem to be bright for a good spring and summer in this section. Mr. Rutherford handles what many consider necessities of life, the daily newspapers and the circulation of these was reduced by the stringency of the times, which compelled many to economize even on the smallest things of life during the last few months.

The circulation of The Courier has increased wonderfully within the past few weeks, and this improvement is noticeable nearly everywhere. The sale of magazines has materially improved, showing that, reading among the people has come more into its own than during the winter months, which are really the reading ones of the year. The approach of the "last day of school" and commencement day, not to speak of the June wedding time, will bring up the trade on standard books and fine art work. Mr. Rutherford is much pleased with indications as he sizes them up and is optimistic that the barometer of trade indicates fair weather in business.

FISHING PROSPECTS GLOWINGLY PICTURED

Scottdale Disciples of Isaac Walton
Are Anticipating Some Rare Sport
When Season Opens Up.

SCOTTTDALE, April 8.—These few sunny days have been making the trout fishing microbe stir itself in the blood of many of the local anglers and the 15th of the month will see some of them, if the day be decent, whipping the streams for the elusive fishy folk. Sherman Pennypacker was here this week from Lewistown, Mifflin county, visiting Clark B. Edwards, who is the best posted man on hunting and fishing in that county, and Pennypacker brought encouraging news on the fishing prospect. He says that everything looks good for plenty of excellent fishing, and the angler that casts his hook may expect to pull something in. Clark Edwards and Harry Laughrey have about decided to tie over to Mifflin county when the season opens, and it is probable that some of the rest of the fishers will go. Forrest Leibell goes hunting and fishing in Centre county, William Ferguson used to visit that section for fish and game, William Miller likes Bedford county. Harry Springer has no particular partiality and goes away wherever fish or game is plenty. Cash Glenn and Jake Kromer keep posted on where the best sport is, the Stoner boys and Joe Steiner, Frank Grady and others are planning some big or two day excursions.

MOVING PICTURE SHOWS POPULAR AT SCOTTTDALE

The Family Theatre on Broadway and
the Nickelodeon on Pittsburgh
Street Doing Good Business.

SCOTTTDALE, April 8.—About a bushel of dimes and nickels go into the moving picture and vaudeville amusement coffers here every evening. The Family Theatre on Broadway, always draws a nice crowd under the management of B. J. Buttermore. All this week he has been having "Knock, the Fish Man," doing a stunt, that shows the fisher isn't afraid of the water. The hit has been entirely changed for the closing half of the week, and "Knock" is teaching of the people how to float, a convenient accomplishment if you were about to drown and could not swim, is drawing the people. The moving picture program is entirely changed, too, and a good show all the way through is on. The Nickelodeon that holds out in the old Baptist Church building on Pittsburgh street has been having a nice run all week. This house was started by the Clabaugh brothers of Connelville.

THE SOISSON THEATRE

"Paid in Full." On Tuesday, April 13, at the Soisson Theatre the Wagonhals and Komper production of "Paid in Full" will be presented. This play contains four great acts and was written by the gone Walter. For his theme Mr. Walter has taken a great moral issue in our American life and his treatment, development, and characterization is said to be stamped with an amazing candor and frankness. Cut and dried rules for play writing have been cast aside and he has proceeded on the belief that red blood, bone and sinew of which we of this world are constituted, our thoughts, deeds and emotions form a pretty fair basis for a play. Mr. Walter makes a determined attack and the unusual aspect of his own play has won him success. In part the theme of "Paid in Full" may be described as delicate, but the author deals with it truthfully and naturally. His dialogue is the understanding vocabulary of the hour and he has adroitly knitted together a most consistent chain of incidents. In the character of Joseph Brooks he has an individual with socialistic tendencies and without an egoist. His heart is filled with silent hatred because his employer does not favor him in the wage matter as generously as he does other workers and in a moment of recklessness he becomes an employer and then sets up his wife and himself in a lavishly appointed apartment. In an effort to win back part of his stolen gains he plays the ponies and goes deeper into the mire with the inevitable result, discovery. In Brooks Mr. Walter has written a wonderful character: likewise in the person of Captain Williams, J. H. Smith and Emma Brooks, characters so natural and lifelike as to be wholly unusual. The play throughout the entire four acts, adheres to the original theme wondrously well. The production is complete in every detail and the cast interpreting the play is a brilliant one. "Paid in Full" last summer enjoyed a run of five months at the Grand Opera House, Chicago, and just closed at the Astor Theatre, New York, where it has been seen for the past two seasons. The engagement here will be a notable one and will attract the most brilliant audience of the season.

Warm.
"The spirit of your husband wishes to speak with you, madam."
"What does he say?"
"He says that he doesn't have to dress in a cold room."—Bohemian.

NICKNAMES AMONG SENATORS ARE VERY COMMON THINGS.

Some of Them Better Known by Their Descriptive Cognomens Than by Real Ones Given Them at Their Birth.

SOME ARE VERY APPROPRIATE

Some of the Jaw Breaking Names of the Tariff Which Are Only Spelled and Not Pronounced—California Opposes Anything That Is Oriental.

United Press Telegram.

WASHINGTON, April 7.—Caucasian Senator Tillman likened the Senate to a vaudeville show and applied nicknames to a number of his distinguished colleagues. That speech was not allowed to remain in the record, it proving too shocking to the refined sensibilities of some of those with whose names and personalities he joked. Yet it is a fact that among their intimates, either here in the Senate or at home, practically all of the members of that august body have a nickname, and, in some cases, are rather glad of it. It shows the possession of a certain popularity which even elevation to the Senate has not been able to stifle.

Some of the nicknames are appropriate enough, while for others a moniker has to be searched. Thus, the suave and smiling Alrich—nick of the iron hand in the velvet glove—is known as the "Big Chief" or the "Boss," author of which titles fit him pretty well. Hays is "Old Constitution" because he can never allow an opportunity to pass to discuss constitutional questions. Beveridge is "The Widow of the Waters" or the "Boy Orator," the former because of his capacity to make stinging remarks, and the latter because of his youthful appearance. Briggs of New Jersey, is "Buffalo Bill" from his resemblance to Colonel Cody. Hristow is "Old Slouch" in remembrance of his portofolio inspection days. Carter is "Uncle Sam" and Chapp, the "Black Eagle" of the Northwest. Dewey is, of course, "Old Captain," and Daniel the "Lame Lion of Lynchburg" or the "Silver-tongued Orator," whom Tillman once described as "the man lost in admiration of his own rhetoric." Chitterson is the "De-fective" or sometimes "Sherlock Holmes," and Callahan is "Old Ag" because of his resemblance to Lincoln. Crane is "Slender William" and his colleague, Lodge was "The Scholar" until that telephone incident of the White House since when he has been

called "Central." La Follette is "Bettling" Bob and Taylor "Fiddling Bob." Tillman is, of course, "Pitchfork Ben," Callahan is known as "Doc" or "The Mayor" the latter because of his position as Chairman of the District of Columbia Committee and the former because at one time he practiced medicine. Money, whose middle name is "De Siro" is called "The Discoverer," Snoot of Utah, is the "Apostle," Heyburn is "Mr. Pickwick" because of a fancied likeness to Dickens' famous character. Clay is "Pompadour," Hale, "The Censor," Frey "Grandpa," Dick, "Slick Dick" because of his noticeable methods of accomplishing what he desires. Stone is "Gun-Shot Bill," and Stephenson "Uncle Ike," while Wetmore is "The Sphinx."

There will be a strenuous opposition to the passage of the Payne tariff bill, it is now stands. Certain industries plead that their existence is imperiled by a paragraph here, and there in the bill. The bill therefore, merits careful attention. But as a precautionary measure, it is recommended that the speaker after knowledge provide himself with a dictionary, an encyclopedia, a pronouncing gazetteer, a grammar, and a pharmacopoeia. Then when the daily press recounts the desperate struggle on the floor of the House or Senate as to the duty on bituminous coal, myrobolans, febrifuge, mangol-wurzel, caducate, malaboc, legum, or xaror, the subject under discussion can be better understood.

By a careful reading of the bill one finds that it is possible to purchase dragon's blood in foreign countries. Hereafter one might have supposed that this commodity was exhausted and that the animals themselves had become extinct, along with the dodo. For those who want it, Balm of Gilead is obtainable abroad. Hides are also a foreign commodity, perhaps for those prone to mental exhaustion. Award fifty lakes also can be imported. Then there is libulone paper, which certainly ought to be popular in dry communities. But just imagine what wild debate will ensue when that paragraph of the bill is reached letting in with out a cent of duty such things as autumn ragoon, and reocut. And what a bitter fight will doubtless be waged on the floor against placing dividend gambler, certain and roscotin on the free list.

California, so some members say, is already up in arms against the awful possibility of the passage of one paragraph, which, it is asserted, will flood the nation with a cheap Oriental product. That paragraph is the one admitting frogs, without reservation, the obnoxious insect. The worst catastrophe of all, however, will occur if paragraph 575 is permitted to remain in the bill. It admits the common variety of European "gnunk" without a cent of duty. Almost as disastrous would be the adoption of the paragraph admitting xylol, toluidine, xylidin, cumulin, binkrobenzol, danist, gin, diphenylamine and benzaldehyde.

Incidentally, there are 46 additional tongue-twisting words in the same paragraph, the entire set of linguistic hurdles being taken by the reading clerk of the House in exactly 28 seconds. Previous to tackling the job, the clerks spent several hours with a dictionary, going over the bill and spelling out the more difficult words phonetically on the margin of the bill. Two clerks, alternating each half hour, read the 52,000 words of the bill in just four hours and 40 minutes. For a time one of them kept up a pace of 300 words a minute.

One government official, who is connected with the administration, of a dependency of the United States situated in the tropical zone, when asked as to his sentiments in regard to the bill, declared: "Well, the only thing I can understand in it is that it will cost me more hereafter to hand some one a toson."

Congressman Thomas of Ohio is struggling with a tariff puzzle that is involving the question, When is a fishhook not a fishhook? A company in his district that manufactures the hooks has appealed to him to straighten out a tangle in the tariff. According to the information that reaches Thomas, the Dingley bill placed a duty on fishhooks that was high enough to foster the industry in this country. Troubles afterwards arose, however, over the construction of the law. The Treasury Department classified the hooks as wire and advised them as a greatly reduced rate of duty. Hooks with files of leathers and ray colored silk attached came in as leatherhooks and as silk. Now the hook manufacturers demand that they be given a section of the bill devoted entirely to fishhooks and with a protective duty attached.

He Accepted the Donkey.

When Harry Sullivan, the Irish tragedian, was playing Richard III, one night and the actor came to the lines "A horse, a horse, my kingdom for a horse," some merry wag in the pit called out: "And wouldn't a jackass do as well for you?" "Sure," answered Sullivan, turning like a flash at the sound of the voice. "Come around to the stage door at once!"
